## **ACTIVIDADES FORMATIVAS**

### **Structure of the theoretical and practical lectures:**

The content of the course will be covered in theoretical and practical lectures of 45 minutes each. The theoretical lectures will also include quizzes and the resolution of practical exercises. Attendance and, above all, active participation in class will be valued.

### **The distribution of the theoretical and practical lectures is as follows:**

Theoretical lectures: 28 hours

Practical lectures: 24 hours

Exercises, cases and home study: 93 hours

Exams: 5 hours

Total dedicated hours: 150 hours

Most of the topics included in the program will include practical exercises during the lecture. Likewise, certain exercises to be solved or developed by the students will be published in ADI with due advance to the deadline for deliver.

The submission and presentation of the requested assignments are determining factors for the final grade of the continuous evaluation.

A basic knowledge of Excel spreadsheets is necessary for carrying out some exercises and cases.

### **Exams:**

There will be a final exam once the course has concluded with an approximate duration of 2 hours and a partial exam during the course.

## **EVALUACIÓN**

# Universidad de Navarra
