ADAPTACIONES

Academic Accommodations

Students in need of academic accommodations should communicate [with Cordinación de estudios of their Faculty](#). Once it has been determined that a student needs adjustments to their ILCE courses, they should contact their professor(s) as soon as possible to set up a meeting and establish the accommodations that best fit each situation. These meetings will take place outside of class time to guarantee the confidentiality of the information.

Students have the right to inform about their needs, and it is a personal decision. Although students are recommended to inform their coordinator at the beginning of the semester (during the first week of the semester), they may inform at any time and are not obligated to utilize the established accommodations. ILCE cannot retroactively implement accommodations for students who have not previously informed of their needs.
