

Conversación avanzada en inglés S1
Teaching guide 2026-27

OVERVIEW

Course description:

This course consists of practical lessons designed to improve participants' conversational skills and pronunciation in daily conversations and academic discussions. The conversation course is especially useful for those who find it difficult to express themselves fluently and spontaneously in English.

The level is C1, in accordance with the [Common European Framework of Reference for Languages \(CEFR\)](#).

- **Title:** CONVERSATION C1
- **Course, semester:** C1 Conversation, Semester 2, 2026-2027
- **Teacher:** Lesley Carol Reid (lreid@unav.es)
- **Language:** English
- **Room and time:** Thursday 14:15-15:30 Aula 33, Edificio Central

COMPETENCIES

Listening comprehension

- I have no or very little difficulty in understanding any kind of spoken language, whether live or broadcast. This is also the case even when delivered at fast native speed, provided I have some time to become familiar with the accent.

Spoken interaction

- I am able to present clear, detailed descriptions of complex subjects, integrating other themes and developing points. I can take part effortlessly in any conversation or discussion and am familiar with idiomatic expressions and colloquial language. I am able to express myself fluently and convey nuances of meaning precisely. When difficulties are encountered, I have the resources to overcome these without altering the flow of a conversation.

PROGRAMME

The topics chosen for this conversation course will be based on current affairs and a list drawn up by myself and students in the first class. This list is flexible and proposals are always welcome. Materials used will primarily come from authentic sources such as video, newspapers, websites etc.

ASSESSMENT

As this is a conversation course, there is no formal evaluation. However, newly acquired vocabulary and the practice of pronunciation will be reviewed and consolidated throughout the course.

There will be an academic record reflecting students' performance, based on attendance and participation.

FUNDAE

Universidad
de Navarra

University staff subsidised by FUNDAE will receive the bonus if they meet the attendance requirements set by FUNDAE: in-person classes: **75% of total sessions**.

In the case of online classes, students have to be connected for a minimum of **75% of the total minutes** of the training.

If this requirement is not met, the subsidy cannot be processed and the employee pays the costs of the training.

It is therefore essential that the FUNDAE sheets are signed every day of class, as attendance without a signature is not counted.
