PROGRAM

Classes will be twice a week, for 90 minutes.

The teacher will provide some input about grammar, vocabulary, reading, etc. and students will do some activities and exercises to make sure they have assimilated that input. In any case, classes will be as dynamic as possible and students are expected to actively participate in them.

In every class all four skills necessary to learn a language will be covered: written comprehension (reading), written production (writing), oral comprehension (listening) and oral interaction (listening and speaking). But the focus will be placed, in particular, on ***oral comprehension and interaction***.

Students are supposed to do extra work at home (***about 3-5 hours every week***) to review the content covered in the classes and to practice ***further listening and oral skills***. Most of this work will not be corrected in the classroom, because students will be provided with an answer key to the exercises or because the objective of the activity is purely to gain fluency in the language. Consequently, ***students*** are expected to be ***autonomous*** (to a certain extent) in their learning.

The use of ***ADI is essential*** in this course as students will find ***extra resources*** and further activities and clarifications to a language point on this e-learning plattform.

- Furthermore, the coursebook (*English File B1, 4th Edition*, Oxford University Press) includes practice exercises as well as access to an online platform (englishfileonline. com) with additional resources.

EDUCATIONAL ACTIVITIES

A wide range of exercises, activities and tasks will be used to help students achieve the B1.1-level.

- Particular emphasis will be placed on expanding their confidence in their oral skills (speaking and listening).
