

***Inglés C1.1: Curso General P6***  
*Guía docente 2026-27*

**PRESENTATION**

Course description

*First part* of a two-semester program designed to further develop learners' confidence, autonomy, and precision in English at the C1 (Advanced) level. The course balances the refinement of language systems with advanced communication skills across all four core areas: reading, listening, speaking, and writing.

Through the integration of authentic, challenging content and real-world themes, the program cultivates not only linguistic competence but also academic literacy, critical thinking, and intercultural awareness. Learners are encouraged to engage with complex ideas, express themselves fluently and persuasively, and adapt their language to various formal and informal contexts.

This course is intended for students of English as a foreign language who have successfully completed a B2 level or its equivalent.

To enrol, it is necessary to take a placement test at the Instituto de Idiomas:

**SKILLS AND COMPETENCIES**

Here are the skills to be developed at the C1 level English course:

At the C1 (Advanced) level, learners can understand extended speech even when it is not clearly structured and when relationships between ideas are only implied rather than explicitly signalled. They can follow television programs and films without much effort and recognize a wide range of idiomatic expressions and colloquialisms.

In reading, C1 learners are able to comprehend a wide range of demanding and longer texts, including specialized articles and longer technical instructions, even if these texts do not directly relate to their field of expertise. They can also recognize implicit meanings within these texts.

Regarding spoken interaction, learners at this level express themselves fluently and spontaneously without obvious searching for expressions. They use language flexibly and effectively for social, academic, and professional purposes. They are able to formulate ideas and opinions precisely and relate their contributions skilfully to those of other speakers in discussions.

For spoken production, C1 learners can present clear and detailed descriptions of complex subjects, integrating sub-themes, developing particular points, and concluding appropriately. They can deliver structured presentations confidently.

In writing, learners produce clear, well-structured texts on complex subjects, demonstrating controlled use of organizational patterns, connectors, and cohesive devices. They are capable of expressing points of view at length, providing supporting arguments and evidence. Their writing includes detailed reports, essays, or letters that highlight the personal significance of events and experiences.
