ACTIVITIES

Class time covers the various requirements and guidance on how to complete the skills needed for the TOEFL exam.

As the course progresses, the student will apply these to practical requirements for completing the tasks within the time constraints of the exam for each skill set.

It is important for students to also bring their laptops and headphones with a cable connector to a desktop with them.

This will make use of the practice tests on the computers, and students will be able to monitor their progress.

EVALUATION

The students will be self-evaluating the progress made from their class and homework tasks, with guidance on development for the writing tasks assessed by the teacher
