GRADING IN JUNE

Universidad de Navarra

Attendance (intervenciones en clase): 10%

Proctored assignments (trabajos dirigidos): problem sets, 30%

June's final exam (prueba escrita): 60%

The final exam in June makes up for the final exam taken in May. If a student wants to additionally try to improve the grade on the proctored assignments, he/she has to take a longer exam and inform of his/her will to do so no later than the end of May. Consequently, the student renounces to his/her achievement during the semester and accepts whatever the new grade is, which can either improve or worsen what obtained for the proctored assignments during the semester.

DETAILS

Types of questions: multiple-choice questions (or the like), short-answer questions, problems. The exact structure of the exams will be announced during the course.

The final exam is comprehensive. *In this case, a minimum of 4/10 is required.*

Students with special education needs: please contact the professor of the course.
